

FOR DRIVERS, COURIERS & HAULIERS

Loads that find you. Rates you keep.

Laydn is the UK load board built by people who've run the wheels. Find work, fill the run home and plan your day from your phone, and never pay a penny of commission.

0%

commission.
Ever.

£0

to join. Free
until January.

Unlimited

users. No
per-seat fees.

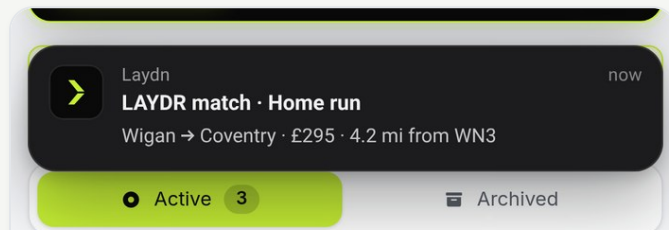

No

contract. Leave
any time.

WHAT YOU GET

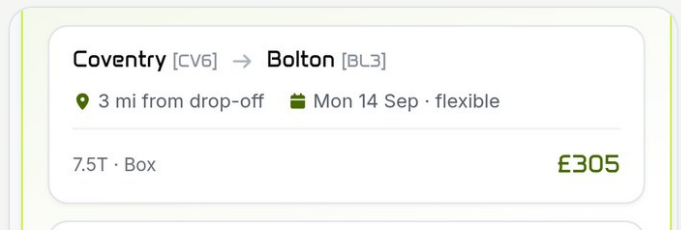

Built for the people who move the freight.

Most load boards charge you to look, charge you for every login and take a cut of the job. Laydn doesn't. Here's what you get instead.

Let the work find you

Set your patch once: where you are, how far you'll go, what you drive and when you're free. **Laydr** pings your phone when a matching load is posted.

Make the way home pay

Win a job and Laydn shows you loads near the drop-off, nearest first, so the run back can earn too. You still win them the normal way.

0% COMMISSION

Keep every penny

The rate on the load is the rate you're paid. The customer pays you direct and Laydn takes nothing off the top: no cut, no fee per job.

NO BIDDING

The price is on the load

Every load shows what it pays before you say you want it. No bidding war, no race to the bottom, no ringing round to find out.

PLANR · ROAMR

A full day in one tap

Planr strings loads from the board into a day that actually works, with the pay, miles and drive time up front. **Roamr** does the same for a week away.

COMPLIANCE

Your paperwork, once

Upload your licence and insurance one time. Customers you show interest in can see them, and Laydn reminds you before anything runs out.

ONE JOB, START TO FINISH

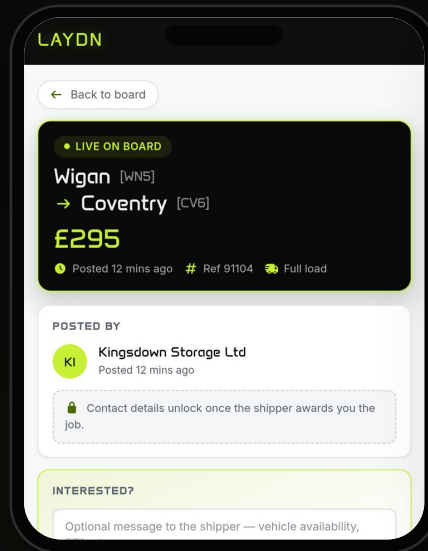

Parked up to loaded, on your phone.

These are real Laydn screens. It installs from your browser straight onto your home screen, with load alerts and Face ID to sign in. No app store involved.

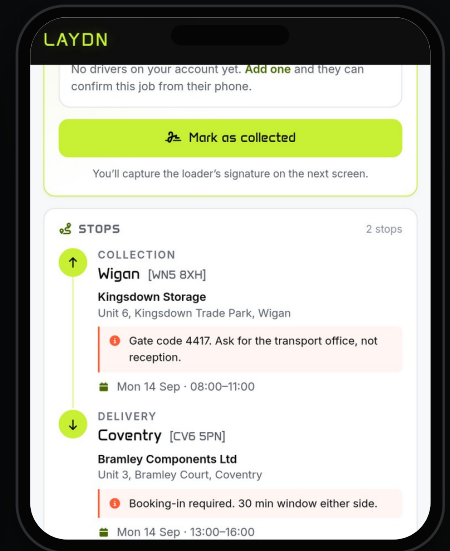

1 It pings you

A load that fits your patch is posted and it lands on your phone: **the route, the price and how far it is from you.**

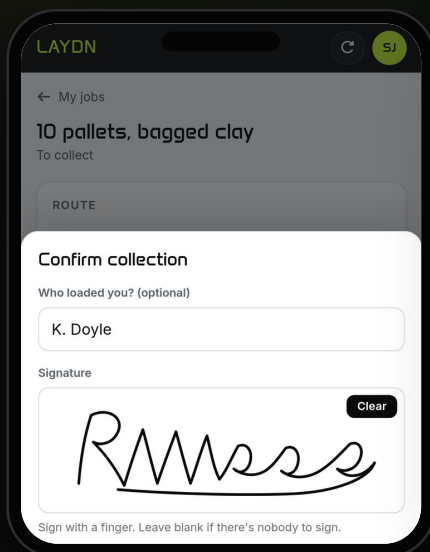

2 See the job

The route, **the price** and the vehicle, up front. Add a note and tap **I want this job**. Their address and number stay private for now.

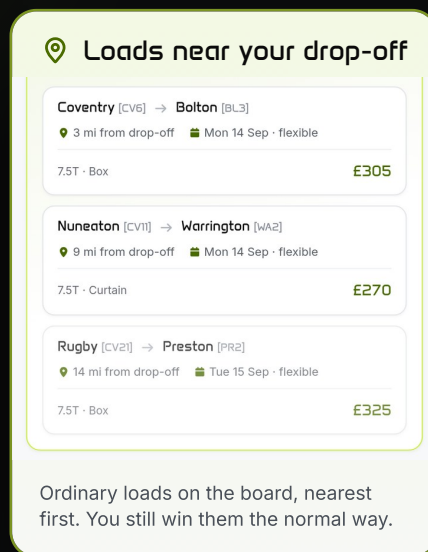

3 Win it, get the door

If they give it to you, **the full addresses and gate notes unlock**, with their number. You agree payment with them direct.

4 Collect and sign

Collection and delivery are **signed for on the phone**, at the bay. No signal? It saves and sends itself when you're back in range.

5 Load up for home

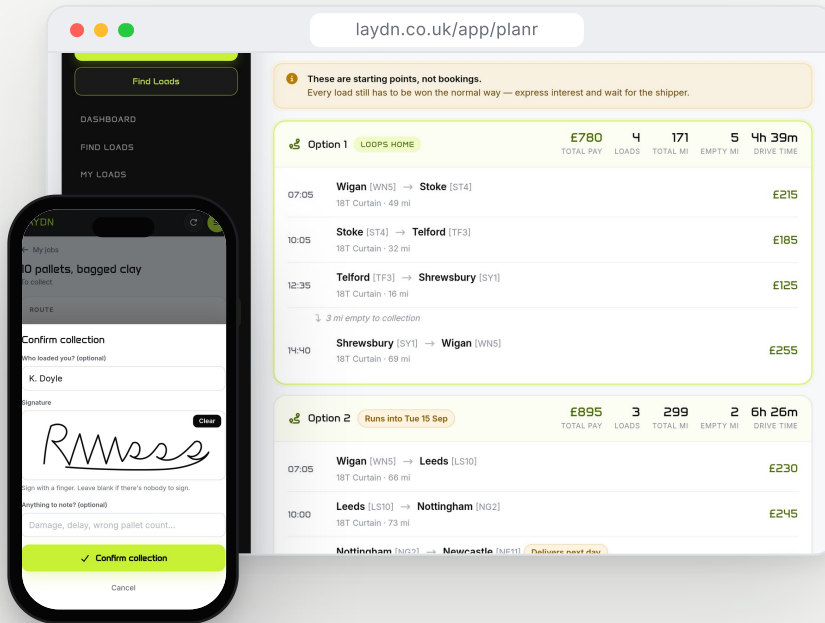

Laydn shows you loads near where you've just dropped, **nearest first**. Win one and the run home pays too.

WHAT YOU WON'T GET

- ✗ A cut of your job
- ✗ A bidding war
- ✗ A bill per login
- ✗ A contract

You agree the job with the customer and **they pay you direct**. Laydn isn't in the middle.

RUNNING VANS OR TRUCKS?

Put the whole firm on it. **No per-seat fees.**Plan tomorrow tonight **PLANR**

Up to five loads chained into a day, with pay, empty miles and drive time on each option. Away all week? **Roamr** plans the tramp.

Jobs on the driver's phone

Drop a job on a driver and it's on their phone to collect, sign and deliver. **No rates on their screen.**

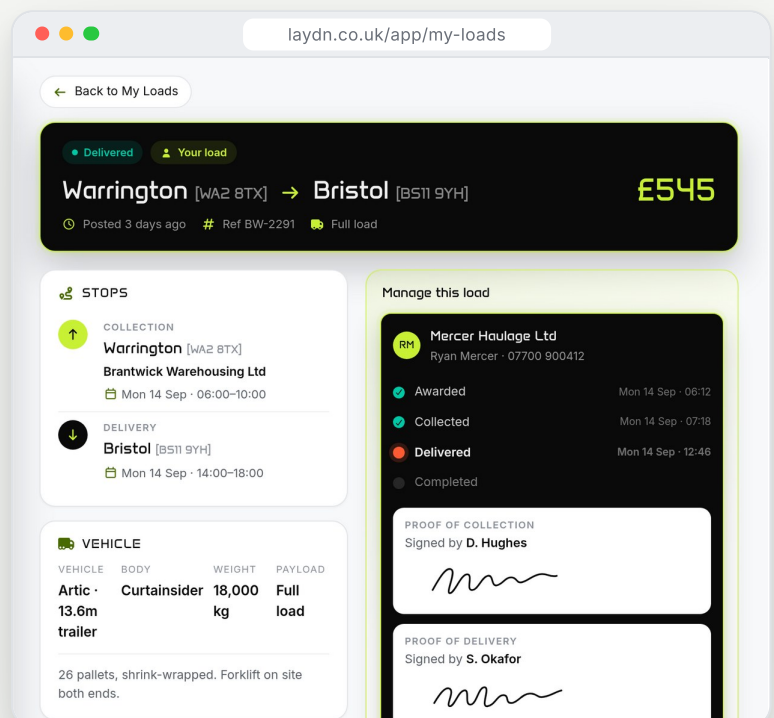

Office and drivers, one account

Everyone gets a login at no extra cost. Insurance and licence expiry dates are tracked for you.

GOT FREIGHT TO MOVE?

Post it free. **Pick who takes it.**

- 1 Post it with your price**
Where, when and what vehicle. The addresses stay private until you award it.
- 2 Interest comes to you**
Each carrier sends a note, a number to ring and the documents they uploaded.
- 3 Check them, then award**
O-licence, goods in transit and insurance, with cover and dates on screen.
- 4 Signed for, both ends**
Collection and delivery are logged with a name, a time and a signature.

Documents are shown as the carrier uploaded them. Laydn doesn't check them, so always do your own checks before you award a job.

NO SMALL PRINT

One price. Everyone. Everything in.

£0

Free until January.

After that it's **£44.99 a month, flat**, whether you post loads, carry them or both. You'll get **a month's notice** before anything is charged.

- ✓ Every tool: board, Laydr, Backloads, Planr, Roamr
- ✓ Unlimited users: office and drivers
- ✓ 0% commission on every job
- ✓ No contract. Leave whenever you like

LAYDN

A TYPICAL LOAD BOARD

Posting loads	Included	Often a separate paid plan
Finding loads	Included	Often another subscription
Users	Unlimited	Priced per seat
Commission	0%, never	A cut of what you move
Contract	None	12-month minimums are common
Day planner & backloads	Built in	Rarely included

Based on common load-board pricing structures.

STRAIGHT TALK

Laydn is new, and **a board is only as busy as the people on it**. Get on early, and if you've got work you can't cover, post it. Every load posted makes it better for everyone on it.

Get on it. Two minutes.

- 1 Sign up free** at laydn.co.uk/signup. It takes a couple of minutes.
- 2 Add it to your home screen**. It works like an app, straight from your browser.
- 3 Upload your paperwork once**, then set your patch in Laydr and let the work come to you.
